Human Development

Interdisciplinary Major or Minor (http://catalog.uwgb.edu/archive/2014-2015/undergraduate/planning/interdisciplinary-majors-minors) (Bachelor of Science)

Professors - Illene Cupit, Regan A.R. Gurung, Dean Von Dras, Julia Wallace

Associate Professors – Denise Bartell, Kathleen Burns (chair), Jennifer Lanter, Dennis N. Lorenz, Ryan Martin, Christine Smith, Kristin Vespia, Georjeanna Wilson-Doenges

Assistant Professors – Jenell Holstead, Deirdre Radosevich, Sawa Senzaki Instructor- Joel Muraco

Human Development is a broad-based interdisciplinary major that explores human growth and change as a lifelong process which a) involves biological, cognitive, emotional, social and moral development, and b) occurs in multiple contexts. It examines the factors that promote healthy development, as well as variations from the norm. Consistent with the interdisciplinary focus of UW-Green Bay, Human Development is a liberal arts program that works to integrate the contributions of psychologists, biologists, anthropologists, sociologists, and scholars from other fields to improve our understanding of the life cycle. Students have opportunities to apply knowledge and to practice the integration of information and methods from different disciplines.

Students follow an introduction to the major with courses that advance the major's learning objectives of developing basic skills such as informational literacy, research skills, and learning about diverse contexts. Human Development focuses on the core phases of development and advanced courses in specific areas of the field (e.g., family and relationships, gender and diversity, and biological and health topics). Students select these upper-level courses based, at least in part, on their particular career goals. Students also take courses from the different disciplines (e.g., biology, public policy, psychology) that contribute to the field of human development.

One particular advantage of the Human Development program is the opportunity for undergraduate students to gain practical experience, and many work with faculty on independent research projects or as research assistants or teaching assistants. Human Development also strives to educate students who are committed to and engaged in their communities. Therefore, students are strongly encouraged to seek applied experience through an internship in an approved community agency, part-time employment, or volunteer work. Such experiences are beneficial when entering the job market or seeking admission to graduate and professional schools.

Human Development is a suitable major or minor for students who plan a career that involves working with people and helping to solve human problems. Career possibilities are varied because of the knowledge students gain, along with the communication, critical thinking, research, and application skills they acquire in a liberal arts major. There are many options in human service, business, and educational settings. Alumni have worked in domestic violence shelters, for non-profit advocacy groups, in sales and customer service, and both with young children in preschools and with adults seeking admission to college. They have also pursued graduate studies in diverse fields, including human development and family studies, higher education or student affairs, law, marriage and family therapy, and more. Admission to graduate school is highly selective and requires a student to have very strong academic credentials. Students with these interests should plan their programs carefully with their advisers in order to select courses and experiences that maximize their competitiveness and be as prepared as possible to apply to graduate school.

Although a minor is not required to graduate with a Human Development major, minors or double majors in such areas as Public and Environmental Affairs, Business Administration, Women's and Gender Studies, and Psychology may be helpful complements in preparing for specific objectives. Faculty advisers can help students tailor their choice of academic plan and electives to their individual career goals. More detailed information about both career and graduate school options for Human Development students can be found on the department website: http://www.uwgb.edu/human-development/.

Human Development Minor

The Human Development minor adds a broad, interdisciplinary component to traditional social science majors such as Psychology and to other interdisciplinary majors such as Human Biology, Design Arts, Arts Management, and Democracy and Justice Studies. For students who major in professional programs such as Education, Social Work, or Business Administration, the minor adds a strong developmental focus to their programs of study.

Courses

HUM DEV 102. Introduction to Human Development. 3 Credits.

Human development from conception through death: physical development, social and emotional development, personality development, the development of language, intellectual development and creativity, and the process of human learning. Fall and Spring.

HUM DEV 198. First Year Seminar. 3 Credits.

Reserved for New Incoming Freshman.

HUM DEV 225. Career Planning. 1 Credit.

Provides students with the knowledge and resources necessary for effective career decision-making in college. The class sessions and assignments focus on self-assessment, learning and applying career development theories, exploring major and career options, and establishing goals for career/life planning.

Fall and Spring.

HUM DEV 283B. Phoenix GPS Program Fall Workshop. 1 Credit.

This course serves as a weekly workshop for GPS sections of First Year Seminars. Each week GPS students will learn from expert faculty and staff how to be successful in and get the most out of college (like how to take good notes, study for college-level courses and effectively manage your stress) and get information on many of the opportunities at UW-Green Bay (like study abroad, performing arts, and getting involved in campus organizations). Students will also have the opportunity to practice the skills they're learning in lab, develop plans for how to effectively utilize this information in their college work, and reflect on how they plan to utilize the information and skills to maximize college and personal success. P: concurrent enrollment in one of the five sections of GPS First Year Seminar Course AND Hum Biol 102-0001.

HUM DEV 299. Travel Course. 1-4 Credits.

Travel courses are conducted to various parts of the world and are led by one or more faculty members. May be repeated to different locations. P: cons of instr & prior trip arr & financial deposit.

HUM DEV 302. Developmental Research Methods. 4 Credits.

A survey of research methods used by developmental researchers. These methods investigate developmental phenomena across the lifespan. Topics will include: the role of research in understanding human development, common methods for research at different phases of the lifespan, and how to assess developmental change.

P: Hum Dev 102; Comm Sci 205 or Math 260 or Bus Adm 216 or Bus Adm 215 & Bus Adm 217 Fall and Spring.

HUM DEV 331. Infancy and Early Childhood. 3 Credits.

Current theories, methods of study and research in the study of human development from conception through the early childhood years, and the interrelationships among biological, social, and psychological aspects of development.

P: Hum Dev 102 or Psych 102; REC: Hum Dev 302

Fall and Spring.

HUM DEV 332. Middle Childhood and Adolescence. 3 Credits.

Individual development from the elementary school years through adolescence: socio-cultural, psychological and physical growth factors in the developmental process of the older child and adolescent. Stresses interpretation of behavior from the perspectives of such theorists as Erikson and Piaget.

P: Hum Dev 102 or Psych 102; REC: Hum Dev 331 or equiv. Fall and Spring.

HUM DEV 336. Gender Development Across the Lifespan. 3 Credits.

An interdisciplinary analysis of changes in biological, social, and identity development for males and females throughout the life span. P: Hum Dev 102 or Soc C D 241. REC: Comm Sci 301.

Fall and Spring.

HUM DEV 342. Cross Cultural Human Development. 3 Credits.

Cultural differences in perception, cognition, language and thought, child development, child rearing, and personality; relationships between various aspects of culture and psychological functioning within non-Western cultures and American ethnic subcultures. P: Hum Dev 102 or Anthro 100; REC: soc sci cse.

Fall and Spring.

HUM DEV 343. Adulthood and Aging. 3 Credits.

Theory and empirical research concerning developmental processes across the adult life span; psychological, cultural and biological factors which influence development in young adulthood, middle adulthood and old age.

P: Hum Dev 102 or Psych 102; REC: Hum Dev 331 and 332.

Fall and Spring.

HUM DEV 344. Dying, Death, and Loss. 3 Credits.

Death, dying, and loss from a multidisciplinary diversity perspective; the development of death concepts across the life span, end of life issues, and cross-cultural death practices and their relation to the American death system.

P: Hum Dev 102.

Spring.

HUM DEV 345. Human Sexuality. 3 Credits.

This course is an introduction to the major psychological, biological, and sociocultural models of human sexuality, with an emphasis on sexual identity development throughout childhood, adolescence, adulthood, and aging.

P: Hum Dev 102; REC: Hum Biol 102. Fall and Spring.

HUM DEV 346. Culture, Development and Health. 3 Credits.

The course will focus on different cultural groups in the U.S. providing a brief multicultural history with an overview of the major religious worldviews before examining how development and approaches to health and well-being vary across cultures. P: Hum Dev 102.

Fall Only.

HUM DEV 350. Developmental Psychobiology. 3 Credits.

New brains, young minds, and early behaviors will be explored using animal and human models. P: Hum Dev 102; and Hum Biol 102 or Biol 202. Fall Only.

HUM DEV 353. Family Development. 3 Credits.

An overview of the study of the American family from a developmental perspective, with particular emphasis on family members' life cycle changes. P: Hum Dev 102 or Sociol 202.

Fall and Spring.

HUM DEV 370. Personal Relationships. 3 Credits.

This course will examine research and theory on the development and processes of romantic relationships, including: attraction, commitment, sexuality, relationship maintenance and dissolution. Students will read primary sources on cutting-edge research in the field, such as: the role of biochemistry in attraction, the impact of personal relationships on health, and the effectiveness of relationship education programs. P: Hum Dev 210 REC: Hum DEv 302 or Comm Sci 301 or Psych 300

Spring.

HUM DEV 424. The Development of Creative and Critical Thinking. 3 Credits.

Explores the definitions and assessment of creative thinking across the lifespan and provides the opportunity to discuss controversial issues in the field and to practice techniques for facilitating thought.

P: Hum Dev 210; and jr st or upper lev Hum Dev/Psych cse. Fall Only.

HUM DEV 443. Spirituality and Development. 3 Credits.

This course in Human Development will explore how spirituality, religion, and faith may represent important aspects of development across the lifespan. Important questions to address include the following: How may 'spirituality' be defined? Is aging a form of spiritual development? Discussion of theoretical, research, and practice applications.

REC: Hum Dev 210, Hum Dev 343.

HUM DEV 478. Honors in the Major. 3 Credits.

P: min 3.50 all cses req for major and min gpa 3.75 all UL cses req for major. Fall and Spring.

HUM DEV 495. Teaching Assistantship. 1-6 Credits.

Students will learn the different components related to successful instruction. This will include theoretical perspective, empirical research, and pedagogical techniques relating to teaching that they can apply to a broad array of future teaching and learning experiences. P: Hum Dev 102, 3.0 GPA in Human Dev and consent of inst; REC: sr st. Fall and Spring.

HUM DEV 496. Research Assistantship. 1-6 Credits.

Students will assist faculty in conducting research. Responsibilities may include literature reviews, library investigations, questionnaire development, recruitment and interviewing of research participants, data collection, management of research studies, data entry, and some statistical analyses. P: Hum Dev 102. REC: Comm Sci 301.

Fall and Spring.

HUM DEV 497. Internship. 1-12 Credits.

Supervised practical experience in an organization or activity appropriate to a student's career and educational interests. Internships are supervised by faculty members and require periodic student/faculty meetings.

P: jr st and gpa > or = 3.00. Fall and Spring.

HUM DEV 498. Independent Study. 1-4 Credits.

Independent study is offered on an individual basis at the student's request and consists of a program of learning activities planned in consultation with a faculty member. A student wishing to study or conduct research in an area not represented in available scheduled courses should develop a preliminary proposal and seek the sponsorship of a faculty member. The student's advisor can direct him or her to instructors with appropriate interests. A written report or equivalent is required for evaluation, and a short title describing the program must be sent early in the semester to the registrar for entry on the student's transcript.

P: fr or so st with cum gpa > or = 2.50; or jr or sr st with cum gpa > or = 2.00. Fall and Spring.

HUM DEV 499. Travel Course. 1-6 Credits.

Travel courses are conducted to various parts of the world and are led by one or more faculty members. May be repeated to different locations. P: cons of instr & prior trip arr & financial deposit.
