

Environmental Sustainability and Business

Certificate Program

Faculty, Business Administration – Vallari Chandna, Amulya Gurtu, David Radosevich

Faculty, Environmental Science – Greg Davis, Mathew Dornbush, Kevin Fermanich, Ryan Holzem, John Katers, Patricia Terry, Michael Zorn

Faculty, Nursing – Susan Gallagher-Lepak, Christine Vandenhouten

Faculty, Public and Environmental Affairs – Scott Furlong, David Helpap, John Stoll

The Environmental Management and Business Institute (EMBI) in conjunction with faculty from Business Administration, Natural and Applied Sciences, and Public and Environmental Affairs offers a broad-based certificate which documents that students have achieved an understanding of the importance of sustainable practices in business activities and community affairs, regardless of what area of emphasis a student's degree program may be centered upon. Understanding that our global future rests upon creating a citizenry that is aware of the need for economic, environmental, and social responsibility is critical for our world economy.

A certificate in Environmental Sustainability and Business is available to students in all academic programs. It consists of a supporting course structure that is complementary to the existing general education requirements and consistent with current credit-load requirements, and thereby will not delay a student's graduation. The main component of the certificate program is an intensive business internship or co-op experience.

Requirements for the Certificate

Supporting Course	3
Select a minimum of three credits (see adviser)
