

# Personal Program of Study

---

## Master of Science in Environmental Science & Policy

Personal programs of study must conform to Environmental Science and Policy program guidelines and be approved in advance by the student's graduate committee, the Environmental Science and Policy program chair, and the Associate Provost for Academic Affairs and Director of Graduate Studies. These programs must include the entire 18-credit program core requirements, at least one 3-4 credit quantitative course ENV S&P 755 or ENV S&P 760 and include a minimum of 34 total credits.

It is possible, even necessary depending on area requirements, that students will include one or two four-credit statistics courses in their academic program. In those cases, only seven credits would be needed in one semester which could be satisfied by ENV S&P 715 or ENV S&P 795, or an independent study or internship. If a regular course is selected, the academic program would include a total of 36 credits.

### Personal Program of Study (16 credits minimum)

| Code  | Title  | Credits |
|---|--|---------|
| <b>Required:</b>  |  |         |
| ENV S&P 755<br>or ENV S&P 760   | Environmental Data Analysis<br>Social Research Methods | 3       |
| <b>Pre-approved individual courses:</b> <sup>1</sup>  |  | 13      |
| Personal programs of study must conform to Environmental Science and Policy program guidelines and be approved in advance by the student's graduate committee, the Environmental Science and Policy program chair, and the Associate Provost for Academic Affairs and Director of Graduate Studies. |  |         |
| Total Credits   |  | 16      |

<sup>1</sup> If ENV S&P 755 is completed, only 12 additional credits of pre-approved coursework is required.
