

Mode of Instruction

- **In Person** - Faculty and students are scheduled in a particular classroom or laboratory during a set day/time.
- **Online** - Online courses let students and faculty interact with each other as class members entirely over the Internet. Instructional courseware utilizes web pages, discussion groups and UWGB e-mail. Online courses do not meet at a particular time or place, but they are structured within the academic semester timeframe and require class participation several times each week.
- **Blended** - A blended course is a course where the content is taught using face-to-face and online or "time-out-of-class" learning modes. Blended courses are approximately 40-60% online with the remainder conducted face-to-face.
- **Virtual Classroom** - Faculty and students interact with each other as class members entirely over the Internet. Faculty and students converse and interact with each other's coursework while viewing each other in a real-time classroom setting.
- **In Person w/online capability** - Faculty and students are scheduled in a particular classroom or laboratory during a set day/time. Lectures and class sessions are recorded and accessed via the Internet.
