

# Chemistry Curriculum Guides

The following are curriculum guides for a four-year Chemistry degree program and is subject to change without notice. Students should consult a Chemistry program advisor to ensure that they have the most accurate and up-to-date information available about a particular four-year degree option.

- Chemistry
  - General Major
  - ACS Certified Major
  - ACS Certified Major in Environmental Chemistry

## General Major

An example: Four year plan for **Chemistry Major**

120 credits necessary to graduate.

Plan is a representation and categories of classes can be switched. Check with your advisor.

## ACS Certified Major

An example: Four year plan for **Chemistry - ACS Certified Major - Professional Major**

120 credits necessary to graduate.

Plan is a representation and categories of classes can be switched. Some upper level courses are only taught once every other year. Check with your advisor for course periodicity.
