

Human Resource Management

The Human Resource Management major in UW-Green Bay's Cofrin School of Business provides students with in-depth knowledge in the Human Resources Management domain through a rigorous curriculum with courses covering important topics in HR such as employee retention and development, recruitment and selection, compensation, job performance and cutting-edge topics such as HR Analytics.

The program provides considerable exposure to the liberal arts and develops the critical thinking, problem-solving, interpersonal, communication, quantitative and computer skills needed by graduates to successfully serve as leaders within modern organizations. The program also addresses contemporary organizational issues such as global competition, social responsibility and ethics, sustainability, and the relationship between organizations and various environmental forces.

In the HRM major students begin their studies by taking general education courses as well as introductory-level business courses. Additionally, students take courses providing an overall understanding of business such as the basics of Marketing, Accounting, Human Resources, Management and Finance among others. Finally, students take HRM-focused upper-level courses and complete a capstone course, prior to applying for graduation.

Our HRM faculty are experts in their field who use a variety of pedagogical practices and connect the classroom to the real-world. Students are also encouraged to complete internships for credit.

Entrance and Exit Requirements

Students can declare a major in Human Resources Management at any time with any number of credits through a simple online process. To declare, students must complete an online Declaration of Major/Minor/Certificate e-form (<https://www.uwgb.edu/registrar/forms-petitions/declaration-swap-forms/>), which includes reading and accepting an Honor Code (pre-declaration form). Your advisor will be assigned to you after the e-form is received.

Students must maintain a cumulative GPA of 2.5 to proceed in the course progression. All students must meet this exit requirement to graduate. Students intending to graduate with this major must have a minimum 2.5 cumulative grade point average.
