

Hydrogeochemistry

The Certificate in Hydrogeochemistry prepares students for employment in the vital field of understanding principles and impacts of water chemistry in the environment.

Code	Title	Credits
Core courses:		9
Required:		
WATER 444	Aqueous Geochemistry	
GEOSCI 432	Hydrogeology	
ENV SCI 330	Hydrology	
Electives		6
Choose two courses:		
ENV SCI 305	Environmental Fate and Transport	
ENV SCI 320	The Soil Environment	
ENV SCI 337	Environmental GIS	
ENV SCI 433	Ground Water: Resources and Regulations	
GEOSCI 402	Sedimentology & Stratigraphy	
CHEM 311	Analytical Chemistry	
Total Credits		15
